CIVIL ACTION NO. 1:25-CV-00094
JUDGE MICHAEL J. TRUNCALE

**ORDER GRANTING PLAINTIFF’S MOTION FOR EMERGENCY
EX PARTE TEMPORARY RESTRAINING ORDER AND ORDER
AUTHORIZING EXPEDITED DISCOVERY**

Plaintiff Eric Evans has filed an Emergency Motion for *Ex Parte* Temporary Restraining Order and Order Authorizing Expedited Discovery (the “Motion”) [Dkt. 3], in which he seeks an order requiring the freezing of the accounts associated Zedxion Exchange, Ltd. and authorization to issue subpoenas to various third parties likely to be in possession of information about the Defendants. The Court has reviewed Plaintiff’s Motion and finds that, for the reasons set out therein, he faces a risk of irreparable harm if the requested relief does not issue and notice to the Defendants should not be required. Accordingly, Plaintiff’s Motion is hereby **GRANTED**.

I. BACKGROUND

Plaintiff’s relevant allegations are as follows. In April 2024, Aubree Hanson contacted Mr. Evans via a dating app. [Dkt. 1 at ¶ 15]. The two struck up a connection and began messaging regularly. *Id.*

Hanson eventually told Mr. Evans about her success investing and trading cryptocurrencies and introduced him to a platform called BlofinTYU. *Id.* at ¶ 16. Hanson told Mr. Evans that she knew how to make profits using BlofinTYU and offered to teach him how to do the same. *Id.* Hanson encouraged Mr. Evans to make a BlofinTYU account, which he soon did. *Id.*

Over the next several months, Hanson ‘trained’ Mr. Evans in cryptocurrency trading using the BlofinTYU platform. *Id.* at ¶ 17. When Mr. Evans was ready to make a deposit on BlofinTYU, the platform provided him asset-transfer instructions via the platform’s customer-service chat or on its “deposit” page. *Id.* Mr. Evans completed the transactions as instructed. *Id.* Each time, the amount of the funds he “deposited” would then be reflected in his transaction history and account balance on the BlofinTYU platform. *Id.* Over time, he sent assets to BlofinTYU with a dollar-denominated value of \$896,226.60. *Id.*

Mr. Evans’s balance on the BlofinTYU platform appeared to grow rapidly—eventually showing that he had crypto assets worth more than \$6.3 million in his account. *Id.* at ¶ 18. But when he attempted to withdraw his funds, BlofinTYU informed him that he could not do so. *Id.* Mr. Evans soon realized that he had been scammed. *Id.*

The BlofinTYU platform was never a “trading platform” of any sort. *Id.* at ¶ 19. It was a simulacrum of a trading platform where no actual trading or investment ever occurred. *Id.* The account balances, the purported profits, and the transaction history displayed were real only in the sense that they reflected the monies Mr. Evans sent to the Defendants. *Id.* And this was simply to ensure that the platform appeared to be functioning. *Id.* The assets Mr. Evans transferred to the Defendants were never “deposited” on BlofinTYU. *Id.* They were never used for cryptocurrency trading. *Id.* They were simply stolen. *Id.*

Evidentiary materials submitted by Mr. Evans suggest that these kinds of investment scams are now amongst the most prevalent forms of cybercrime worldwide. [Dkt. 3-1 (Declaration of Evan Cole providing academic literature regarding pig-butcher scam epidemic)].

After retaining counsel, Mr. Evans’s blockchain investigator performed a “blockchain tracing” report. This “tracing” refers to the process of following digital assets from location to location on the blockchain via publicly available data. [Dkt. 3-1 at ¶ 6]. Mr. Evans’s investigator was able to trace his allegedly stolen assets to addresses associated with Zedxion Exchange, Ltd. *Id.* at 26. Mr. Evans has further provided evidence that Zedxion, itself a defendant in this case, is utilizing the crypto-custody services of ChainUp PTE Ltd. (henceforth “ChainUp”). *Id.* In the instant Motion, Mr. Evans asks the Court to order

that ChainUp temporarily freeze the accounts associated with the Zedxion Exchange he has identified as receiving the assets stolen from him, so that he might preserve some assets for recovery.

In addition, by investigating BlofinTYU's website, Mr. Evans has identified several additional third parties he claims are likely to be in possession of information about the Defendants. [Dkt. 3 at 24–25]. These third parties include, for example, the companies this website used for web hosting. His Motion seeks to issue subpoenas to these third parties, with the aim of revealing the Defendants' true identities and unearthing contact information that he might subsequently use to serve or otherwise communicate with them. *Id.* at 24–25.

II. ANALYSIS

Mr. Evans has met the requirements for issuance of a temporary restraining order and expedited discovery for the following reasons.

A. Temporary Restraining Order

The standard for issuance of an *ex parte* temporary restraining order has both procedural and substantive elements. Procedurally, the Court has the authority to issue an *ex parte* restraining order where (i) “specific facts in an affidavit or a verified complaint clearly show that immediate and irreparable injury, loss, or damage will result to the movant before the adverse party can be heard in opposition,” and (ii) “the movant’s attorney certifies in writing any efforts made to give notice and why it should not be required.” *See* FED. R. CIV. P. 65(b)(1)(A)–(B).

Both requirements are met here. Mr. Evans’s Complaint, the Cole Declaration, and the blockchain-tracing report show the likelihood of immediate and irreparable injury or loss. These materials suggest that Mr. Evans was in fact the victim of a prevalent form of cybercrime—the “pig- butchering scam”—which features well-established and recognizable patterns of deception. *See* [Dkt. 3 at ¶¶ 15–27; Dkt. 3-1 at ¶¶ 3–5 (concluding that Mr. Evans was the victim of a pig-butchering scam and providing academic literature for comparison)]. The Cole Declaration further details how the assets allegedly stolen from Mr. Evans could be further transferred to unretrievable locations at any time, with the click of a button. [Dkt. 3-1 at

¶ 6]. Several federal courts, including this Court, have found that this exigency justified issuance of *ex parte* restraining orders in similar crypto-fraud cases, and this Court finds their reasoning persuasive here.¹

In addition, Mr. Evans’s attorney has certified why notice should not be required. As Mr. Evans points out in his Motion, the Court has the authority to enter an *ex parte* order not only where notice to the adverse party is impracticable, but where “notice to the defendant would render fruitless [the] prosecution of the action.” *Matter of Vuitton et Fils S.A.*, 606 F.2d 1, 5 (2d Cir. 1979); *see also, e.g., First Tech. Safety Sys., Inc. v. Depinet*, 11 F.3d 641, 650 (6th Cir. 1993) (noting that *ex parte* order is justified where “the adverse party has a history of disposing of evidence or violating court orders or [] persons similar to the adverse party have such a history”). Under this logic, courts have found that notice of an asset-freeze motion is not required if the parties to be enjoined “are likely to dissipate assets and destroy business documents,” such that the very act of providing notice would “cause immediate and irreparable injury or damages to the Court’s ability to award effective final relief.” *Fed. Trade Comm’n v. Dluca*, No. 18-60379-CIV, 2018 WL 1830800, at *2 (S.D. Fla. Feb. 28, 2018), *report and recommendation adopted*, No. 0:18-CV-60379-KMM, 2018 WL 1811904 (S.D. Fla. Mar. 12, 2018). Several courts have found that this same reasoning justified issuance of *ex parte* freezing orders in crypto-fraud cases analogous to this one.²

¹ *See, e.g., Harris v. Upwintrade.com*, 1:24-cv-00313-MJT, Dkt. 7 (E.D. Tex. Aug. 8, 2024) (Truncala, J.) (granting TRO in functionally identical pig-butcher case); *Cohn v. Popescu*, No. 1:24-cv-00337, 2024 WL 4525511 (E.D. Tex. Aug. 16, 2024) (Truncala J.) (same); *Ohlin v. Defendant 1*, No. 3:23cv8856-TKW-HTC, 2023 WL 3676797, at *3 (N.D. Fla. May 26, 2023) (“Considering the speed with which cryptocurrency transactions are made as well as the anonymous nature of those transactions, it is imperative to freeze the Destination Addresses to maintain the status quo to avoid dissipation of the money illegally taken from Plaintiffs.”); *Jacobo v. Doe*, No. 1:22-CV-00672DAD-BAK (BAM), 2022 WL 2052637, at *3 (E.D. Cal. June 7, 2022) (“Because it would be a simple matter for [defendant] to transfer [the] cryptocurrency to unidentified recipients outside the traditional banking system and effectively place the assets at issue in this matter beyond the reach of the court, the court finds that plaintiff is likely to suffer immediate and irreparable harm in the absence of injunctive relief.”) (cleaned up); *Astrove v. Doe*, No. 22-CV-80614-RAR, 2022 WL 2805315, at *3 (S.D. Fla. Apr. 22, 2022) (same).

² *See, e.g., Gaponyuk v. Alferov*, No. 2:23:CV-01317-KJM-JDP, 2023 WL 4670043, at *2 (E.D. Cal. July 20, 2023) (issuing *ex parte* asset-freeze TRO in similar crypto-fraud case, and writing that “federal district courts have granted *ex parte* relief in situations like this one, noting the risks that cryptocurrencies may rapidly become lost and untraceable.”); *Ohlin*, 2023 WL 3676797, at *2 (notice not required where plaintiff offered declarations showing that the defendants were crypto-criminals, which gave the court “every reason to believe the Defendants would further hide those [stolen] assets if they were given notice”); *Jacobo*, 2022 WL 2052637, at *3 (notice not required because plaintiff made credible allegations that defendants were crypto-criminals, which “pose[d] a heightened risk of asset dissipation”).

Here, the thrust of Mr. Evans’s allegations is that the Defendants are professional cybercriminals who have every motivation to place their ill-gotten gains beyond the reach of this Court or any other authority. *See generally* [Dkts. 1, 3]. While at this stage these are simply allegations, Mr. Evans has provided sufficient evidence to suggest that the Defendants will in fact further dissipate assets if they were given notice of this motion. This is sufficient to justify issuance of an *ex parte* order under these unique circumstances.

Having found that the procedural requirements for issuance of an *ex parte* restraining order are met, the Court now turns to the substantive standard. To obtain a temporary restraining order, a movant must show (1) a substantial likelihood of success on the merits, (2) a substantial threat of irreparable harm if the injunction does not issue, (3) that the threatened injury outweighs any harm that will result if the injunction is granted, and (4) that the grant of an injunction is in the public interest. *Moore v. Brown*, 868 F.3d 398, 402–03 (5th Cir. 2017) (per curiam) (citing *Byrum v. Landreth*, 566 F.3d 442, 445 (5th Cir. 2009)).

Mr. Evans has met each of these requirements. On the merits, Mr. Evans makes claims against the Defendants for violation of the Racketeering Influenced and Corrupt Organizations Act (“RICO”), fraud, and conversion. [Dkt. 1 at ¶¶ 15 – 27]. He has alleged and provided evidence that the Defendants deceived him and misappropriated his assets in what appears to have been an intentional scam. *Id.*; [Dkt. 3-1 at ¶¶ 3–5]. The Court finds, at this stage, that the similarities between Plaintiff’s allegations and the widely known characteristics of this distinctive kind of scam suggest that he will indeed be able to prevail on these claims once a full evidentiary record is developed. In addition, the Court notes that asset freeze Mr. Evans seeks in this instance is permissible in light of his request for a constructive trust over specific, traceable stolen assets, as several courts have held in analogous cryptocurrency-fraud cases. *See, e.g., Yogaratnam v. Dubois*, No. CV 24-393, 2024 WL 758387, at *3 (E.D. La. Feb. 23, 2024) (issuing asset-freeze TRO in crypto-fraud case, noting that “numerous district courts . . . have issued a TRO in this exact circumstance to freeze a cryptocurrency asset,” and collecting cases); *Jacobo*, 2022 WL 2052637, at *3

(issuing asset-freezing TRO where plaintiff sought constructive trust over allegedly stolen assets); *Gaponyuk*, 2023 WL 4670043, at *2 (same).

Mr. Evans has also shown that irreparable harm will ensue absent the restraining order he seeks, for the same reasons explained above. In light of the speed with which cryptocurrency transactions are made, as well as the potential that the Defendants may further move the assets they are alleged to have stolen, the Court finds that Mr. Evans's request to freeze the exchange accounts to which those assets were transferred is justified, as have other courts in similar cases. *See Jacobo*, 2022 WL 2052637, at *3.

Next, the Court finds that the threatened injury to Mr. Evans outweighs any harm the Defendants may suffer by virtue of a freeze of their accounts. Maintaining the assets at the destination accounts is perhaps Mr. Evans's only realistic chance at a future recovery in this case. In contrast, the Defendants will suffer at worst a temporary inability to move assets if the injunction is later dissolved. *See Jacobo*, 2022 WL 2052637, at *6 (finding "[a] delay in defendant's ability to transfer the [allegedly stolen] assets only minimally prejudices defendant, whereas withholding injunctive relief would severely prejudice plaintiff by providing defendant time to transfer the allegedly purloined assets into other accounts beyond the reach of this court").

Finally, the Court finds that issuing the injunction is in the public interest. Mr. Evans has adduced evidence showing that he is but one of many victims of what appears to be an epidemic of similar scams. [Dkt. 3-1 at ¶¶ 3–6]. A freezing order will serve the public interest here both by dissuading would-be fraudsters from preying on American citizens, and "providing assurance to the public that courts will take action to promote . . . recovery of stolen assets when they can be readily located and traced to specific locations." *Jacobo*, 2022 WL 2052637, at *6; *see also, e.g., Gaponyuk*, 2023 WL 4670043, at *3 (finding that asset freeze would "serve the public's interest in stopping, investigating, and remedying frauds").

B. Expedited Discovery

Typically, parties may not seek "discovery from any source before the parties have conferred as required by Rule 26(f)." FED R. CIV. P. 26(d)(1). But expedited discovery before a Rule 26(f) conference

is permitted where “authorized . . . by court order.” *Id.* Although the Fifth Circuit has not adopted a standard by which authorization may be issued, several district courts in the Fifth Circuit apply a “good cause” standard to determine whether such an order should issue. *Cothran v. Koomson*, No. 4:20-CV-481-SDJ, 2020 WL 6450498, at *1 (E.D. Tex. Nov. 3, 2020) (Jordan, J.); *St. Louis Grp., Inc. v. Metals & Additives Corp.*, 275 F.R.D. 236, 239–40 (S.D. Tex. 2011) (collecting cases) (applying good cause standard). Good cause may be found where “the need for expedited discovery in consideration of the administration of justice, outweighs the prejudice to the responding party.”³ *St. Louis Group*, 275 F.R.D. at 239 (internal quotation marks and citation omitted).

Many courts, including this Court, have authorized expedited discovery from cryptocurrency exchanges in cryptocurrency-related fraud cases like this one. *See, e.g., Harris*, No. 1:24-cv-00313-MJT, at p. 14 (authorizing expedited discovery); *Cohn*, 2024 WL 4525511, at *5 (same); *Strivelli v. Doe*, No. 22-cv-22060, 2022 WL 1082638, at *2 (D.N.J. Apr. 11, 2022) (authorizing expedited discovery from cryptocurrency exchanges in crypto case and noting “the Court’s review of cryptocurrency theft cases reveals that courts often grant motions for expedited discovery to ascertain the identity of John Doe defendants.”); *Licht v. Ling*, No. 3:23-CV-1018-X, 2023 WL 4504585, at *4 (N.D. Tex. June 20, 2023) (issuing broad authorization for expedited discovery in functionally identical crypto-fraud case and requiring that “any party served with a request for production shall produce all requested items within 72 hours of the request”).

³ More specifically, in determining whether good causes exists, a court weighs the following factors:

- (1) [W]hether the plaintiff has made a prima facie case of actionable harm; (2) the specificity of the discovery request; (3) the absence of alternative means to obtain the subpoenaed information; (4) whether there is a central need for the subpoenaed information to advance the claim; and (5) the user’s expectation of privacy.

Cothran, 2020 WL 6450498, at *2 (citations omitted). Plaintiff did not explicitly address these factors in the pending motion. *See generally* [Dkt. 3]. However, given its contents, the Court finds that Plaintiffs has made a sufficient showing on these factors.

Here, Mr. Evans's proposed discovery arises from his pre-suit blockchain tracing and investigation of the Defendants' web property. These investigations revealed a series of third parties likely to be in possession of information about the Defendants. Each of those third parties and their alleged connections to this case are set out below.

<i>Subpoena Target</i>	<i>Connection to Case</i>
Tencent Holdings, Ltd.	Tencent operates Tencent Cloud, which provided cloud computing services to blofintyu.top.
Shanghai Meicheng Ltd.	Shanghai Meicheng Ltd. operates as CNDNS.com, which provided web hosting and domain registrar services to blofintyu.top.
Amazon.com, Inc.	Blofintyu.top used Amazon's servers for domain name services.

Mr. Evans requests the Court's authorization to issue subpoenas to each of the above-listed entities seeking the following information. For all targets, Mr. Evans seeks to discover all biographical and contact information associated with the Defendants' accounts. He also seeks to discover IP-address and location logs showing the devices and locations from which the Defendants accessed these accounts.

Mr. Evans also seeks to discover any payments information in the subpoena targets' possession, including the Defendants' transaction histories and information about the credit or debit cards the Defendants used to pay for the subpoena targets' services. As to the Defendants' payment methods, Mr. Evans seeks only information sufficient to identify the Defendants' payments provider and the Defendants' account with that provider.

Courts have authorized similar discovery where the plaintiff adduced evidence that the persons about whom the information was sought were cybercriminals and the plaintiff also sought a temporary restraining order freezing the assets held in those accounts. *Strivelli*, 2022 WL 1082638, at *2 (granting broad expedited discovery in functionally identical crypto-fraud case); *see also Licht*, 2023

WL 4504585, at *4 (same). The Court finds these courts' reasoning persuasive and therefore authorizes the scope of discovery requested by Mr. Evans here.

III. RELIEF GRANTED

A. Temporary Restraining Order

Plaintiff has submitted evidence tracing the assets he alleges were stolen from him to deposit addresses at the cryptocurrency exchange Zedxion, (the "Receiving Addresses"). The Receiving Addresses are:

Exchange	Address
Zedxion	1QDjYS3EvJVvgXGsLvJ5PfEWYNGrxtT7cU
Zedxion	1J5G7VLQxVi9S3puLEQFw1AtoApDXZHfHC
Zedxion	17ukjqPcck3WdxTMYgsuFueGgKcfpisEJa

For the reasons set out in the Motion, the Court finds that the accounts associated with these deposit addresses should be frozen. Accordingly, the Court hereby **ORDERS** that Defendants and their agents, servants, employees, attorneys, partners, successors, assigns, and all other persons or entities through which they act or who act in active concert or participation with any of them, who receive actual notice of this Order by personal service or otherwise, whether acting directly or through any trust, corporation, subsidiary, division or other device, or any of them, are hereby restrained from withdrawing, transferring, or encumbering any assets currently held by, for, or on behalf of the persons controlling the accounts associated with the above-listed Receiving Addresses, or any business entity through which they act or which acts in active concert or participation with them; including but not limited to those assets currently held at or for the Receiving Addresses.

In accordance with FED. R. CIV. P. 65(b)(2), this Order will expire fourteen (14) days from its entry unless it is extended for good cause shown. No bond shall be required to be posted by Plaintiff.

B. Expedited Discovery

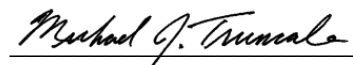

The Court finds that Plaintiff's request to issue expedited discovery should be granted for the reasons set out in the Motion. Plaintiff is authorized to serve subpoenas on the following third parties:

- Tencent Holdings, Ltd.
- Shanghai Meiching Ltd.
- Amazon.com, Inc.

All subpoenaed parties shall produce the materials sought in the subpoena to Plaintiff's counsel within seven (7) days of their receipt of Plaintiff's subpoena and this Order.

The Court finds that any privacy interest the Defendants have in the documents requested by Plaintiff is outweighed by the need to investigate and prosecute the theft and conversion alleged in the complaint. Such privacy concerns shall not be good cause for the subpoenaed party to withhold the requested material.

SIGNED this 1st day of April, 2025.

Michael J. Truncala
United States District Judge
